"TOGETHER FOR A SUSTAINABLE FUTURE"

Prince Sultan University
**CENTER FOR SUSTAINABILITY
AND CLIMATE (CSC)**

مركز الاستدامة والمناخ

The Kingdom of Saudi Arabia is aware of the importance of combating the mutual challenges of climate change and its adverse impacts. Therefore, the Kingdom has launched unique initiatives that are important to the region and the world.

Custodian of the Two Holy Mosques, King Salman Bin Abdulaziz Al - Saud

Climate action will enhance competitiveness, spark innovation, and create millions of high-quality jobs. Young people, both in the Kingdom and the world, are demanding a cleaner , greener and more inclusive future, and we owe it to them to deliver on this.

His Royal Highness, the Crown Prince Mohammed Bin Salman

Who we are

Prince Sultan University's Center for Sustainability and Climate (CSC) is committed to the United Nations Sustainable Development Goals (SDGs) through effective institutional resources management, innovative teaching and learning, research, national and international partnerships, continuous studies, and outreach. PSU shall undertake the following activities: form higher and steering committees, evaluate each SDG, formulate and develop related SDG policies, conduct awareness campaigns to the PSU community, establish a sustainability office, identify the SDGs related to each college, program, and course, and lab centers at PSU, and implement sustainability-related.

Vision

To support Saudi Arabia's Vision 2030 and the United Nations Sustainable Development Goals (SDGs) towards sustainability and climate justice by inspiring action, developing leadership, and building networks.

Mission

Supporting the Saudi Arabia's Vision 2030 and the PSU's strategic directions, Prince Sultan University's Center for Sustainability and Climate (CSC) transform commitments into action and build a decarbonized, more sustainable world, driving technological and economic transformations to realize sustainable competitive advantage. To coordinate, promote, and accelerate interdisciplinary research and training on sustainability and climate, and the role of humans in the environment.

Message from the Director

Center for Sustainability and Climate

Prince Sultan University's Center for Sustainability and Climate (CSC) is committed to the United Nations Sustainable Development Goals (SDGs) through effective institutional resources management, innovative teaching and learning, research, national and international partnerships, continuous studies, and outreach.

Since the launch of Vision 2030 in 2016, the Kingdom has taken significant steps to scale up its climate action and environmental protection. Our mission is to support the Saudi Arabia's Vision 2030 and the PSU's strategic directions. Prince Sultan University's Center for Sustainability and Climate (CSC) transform commitments into action and build a decarbonized, more sustainable world, driving technological and economic transformations to realize sustainable competitive advantage. To coordinate, promote, and accelerate interdisciplinary research and training on sustainability and climate, and the role of humans in the environment.

"Prince Sultan University is the First Saudi University to Pledge Net Zero Carbon University by 2060"

"Prince Sultan University is the Second Saudi University in SDG 17 - Partnerships for the goals"

With the launch of the Saudi Green Initiative in 2021 as part of Saudi Vision 2030, the Kingdom has reaffirmed its belief in a sustainable future for all. According to Saudi Green Initiative "The first wave of more than 60 initiatives announced under SGI—and unveiled at the October 2021 Saudi Green Initiative Forum—represent over SAR 700 billion investment to contribute to the growth of the green economy. Under the patronage of HRH Crown Prince Mohammed bin Salman, the Saudi Green Initiative now takes efforts to the next level by unifying all sustainability efforts in the Kingdom to increase reliance on clean energy, offset the impact of fossil fuels and combat climate change."

The Center for Sustainability and Climate (CSC) at PSU is strongly committed to contribute to the initiatives of Saudi Green Initiative, Saudi Vision 2030 and of course the United Nations Sustainable Development Goals (SDGs).

We will work together to make a better world.

Impact of COVID-19: How CEOs Respond to SMEs Recovery Planning in Saudi Arabia

Prof. Mohammad Nurunnabi, Dr. Hisham Mohammed Alhawal, Dr. Zehirul Hoque.

June 25,2020

Businesses have been forced to find creative and innovative ways of addressing some of the great challenges facing our world resulting from COVID-19 pandemic. This report presents an analysis of the findings from the interviews of chief executive officers (CEOs) of 111 small and medium enterprises (SMEs) in Saudi Arabia. Three key areas are highlighted: a) challenges that SMEs in Saudi Arabian businesses are facing due to the COVID-19 pandemic; b) the impact of the COVID-19 health crisis on their businesses; and c) their recovery plans to sustain in their business. The outcome of the findings offers a broader understanding of how a wide-ranging of innovative ideas associated with an organisation's desire for improving its efficiency, effectiveness and value creation for customers and other stakeholders such as government and the community.

PSU's Prosthetics and Orthotics Center aims to bring mobility to Saudi Arabia's amputees

February 15, 2022

3D printing technology can help build custom-made prosthetics for amputees

In 2018, almost 4,000 people in Saudi Arabia had a lower limb amputated, and more than half of these cases were due to diabetes, according to an article in Eastern Mediterranean Health Journal. However, many amputees do not receive rehabilitation services, and amputation often carries a high economic and emotional impact.

Prince Sultan University is the 2nd Private University in the World* to Earn AACSB Accounting Accreditation

February 07,2022

AACSB International (AACSB) announces that the Prince Sultan University, Riyadh, Kingdom of Saudi Arabia has earned Accounting accreditation for its Department of Accounting, College of Business Administration. Founded in 1916, AACSB is the longest-serving global accrediting body for business schools, and the largest business education network connecting learners, educators, and businesses worldwide.
