

Translation

Program 2024-2025

Introduction

Welcome to Our BA in Translation Program!

In today's rapidly changing world, translation is more important than ever as a powerful tool for connecting cultures and sharing ideas globally. While technology and AI have transformed many aspects of communication, the art of translation still requires skilled professionals who can deliver quality and accuracy.

Translation is no longer a simple task—it has become a dynamic and complex process that demands expertise and cultural sensitivity. As global demand for translation services grows, so does the need for professionals who can navigate this evolving field. This is reflected in the rising demand for translators in today's international markets.

Join our BA in Translation program and become a key player in this dynamic and exciting field!

Program Vision

The Translation Program aspires to produce global citizens capable of shaping the future by facilitating communication across languages and cultures.

Program Mission

The Translation Program aims to enhance students' translation competence by refining their language proficiency, interlingual communication skills, and critical thinking abilities. It aspires to equip students with state-of-the-art technology, research skills, and a dedication to professional and academic development to meet the demands of the job market.

Program Objectives:

- 1. Enhance students' understanding of the structure and functionality of the English language, preparing them for diverse communication contexts.
- 2. Equip students with the ability to comprehend diverse translation approaches and apply them professionally in translating texts across various fields.
- 3. To cultivate students' communication, critical thinking, analytical, and technological/digital skills, as well as promote research and professional development competencies.

Translation Program Learning Outcomes
